
Amazon FireTV App

Get More from Video Monitoring with Amazon Fire TV App

Alarm.com is always looking for new ways we can help seamlessly connect the devices in your customer's home for a truly unique Smart Home experience.

With the new Alarm.com app for Amazon Fire TV, your Video Monitoring customers can stream live video from their Alarm.com cameras to their TV! Your customers can instantly see what's happening around their home right from their TV – without getting up from the couch!

With our focus on delivering first-to-market technology for our Partners, we are ensuring that together we offer the most innovative and compelling Smart Home security services available.

Visit [Installation and Troubleshooting](#) for more information.

To get started your customers need:

- Amazon.com account Amazon Fire TV or
- Amazon Fire TV Stick
- TV with HDMI port
- Alarm.com account with supported video cameras
